Stand Up R

BREAKTHROUGH
DESIGN

INNOVATIVE
SOLUTION

UNPLUGGED

Our designers' concept and execution of STAND UP R was recognised in the international Red Dot competition and received the highest Best Red Dot Award: Product Design 2017 for high quality aesthetics and breakthrough design.

We are extremely proud because we've been recognised for this innovative solution that promotes active working. Our patented mechanism allows the user to adjust the height of the desktop. We can quickly change the position in which we work from sitting to standing.

We also wanted the form of the desk to be simple and give a sense of freedom. The fact that the desk top adjustment does not require a power supply allows for easy relocation in the workspace

Stand Up R in action -
see how you can use it!

PATENTED

reddot award 2017
best of the best

Stand Up R won the most prestigious award in the international environment - the ultimate accolade.

Stand Up R

NATURAL

SIMPLE

UNPLUGGED

reddot award 2017
best of the best

Stand Up R was created in response to health problems related to long-term seated work. It is based on a patented, manual height-adjustment system, which allows for dynamic work in sit and stand mode. It gives you the ability to smoothly move from one position to another without interrupting your tasks. Stand Up R provides excellent support for individual and team work, creating an ergonomic and comfortable workplace.

Solid oak legs perfectly complement both classic spaces and contemporary office environments

Stand Up R supports ergonomic and comfortable activity. Manual height-adjustment is quick and intuitive and, because it is independent of a power source, facilitates flexible office design and positioning. The workstation gives you the opportunity to work simultaneously on your laptop and monitor.

The raw design of the desk's frame chimes perfectly with the current taste for industrial-style offices.

A wide range of desk colour finishes, an optional print on the side panel or a upholstered overlay give almost unlimited possibilities to personalise your workplace. Functionality, ergonomics and the ability to personalise are key advantages of this system.

Do not be afraid of colours, enjoy Stand Up!

Long-term sitting

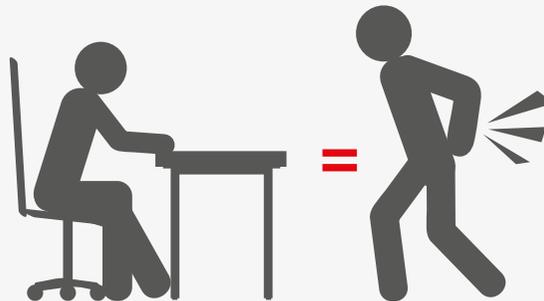

Did you know that, on average, we are active only for **76 minutes** per day?

- Using a computer **1860 minutes**
- Sleeping **429 minutes**
- Working in sitting position **434 minutes**
- Watching TV **132 minutes**
- Free time **102 minutes**
- Traveling **81 minutes**
- Activity **76 minutes**

Health problems

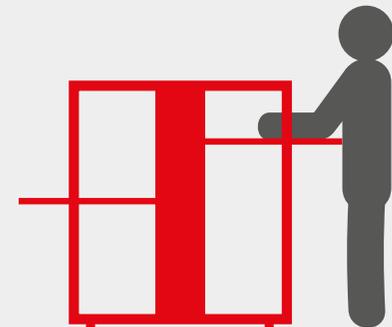

Long-term sitting can cause a lot of unwelcome **medical conditions**.

- Neck pain
- Muscular degeneration
- Back pain
- Poor blood circulation
- Heart diseases
- Risk of diabetes
- Knee pain
- Obesity

Solution

Stand up for your health!

- Work in standing and sitting positions**
- Walk during breaks
- Write fewer emails-talk f2f
- Walk while talking on the phone
- Use the stairs

Stand up revolution

A recent study showed that **79% of employees** think that their happiness at work depends as much on their **ergonomic office environment as on high wages.** ¹

Working in a standing position makes our heart accelerate up to 10 beats per minute, **reducing the risk of cardiovascular disease.** ²

90% of workers in Scandinavia have access to **sitting-standing workplaces.** ²
